Do Not Fully Tighten

Repeat
Both Sides

Squash both brackets
together and fully
tighten the bolts.

Reverse Stages

15 - 1

ESSENTIAL CHECKS

It is recommended that periodic inspections are made to ensure that dirt and debris have not become trapped between the guard and the radiator/oil cooler. Such dirt and debris would reduce the cooling efficiency of the radiator/oil cooler.

It is recommended that periodic inspections are made to ensure that all fixings are fully tightend.
