### UNICASE FOR MOTORCYCLES - SMARTPHONES UP TO 6.5" THE FUNCTIONAL AND PRACTICAL UNIVERSAL CASE FOR MOTORCYCLES

#### Description

Universal holders enable your smartphone to be installed on your motorcycle's handlebar, while offering broad compatibility with devices of different sizes.

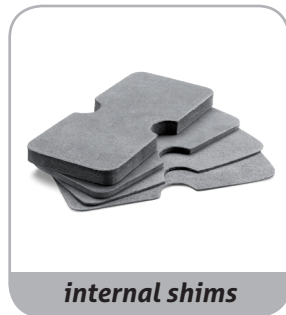

A waterproof universal case for smartphones up to 6.5" ideal for taking your phone with you whenever you're out and about, on your motorcycle or bike, in complete safety.

The holder features a mount for tubular handlebars with a maximum diameter of 30 mm. The articulated mount means the holder can be tilted and turned, making it practical and easy to use while you're riding.

Unicase for motorcycles protects the smartphone against knocks and atmospheric agents such as water spray, dust and rain. The clear front window made of special crystal film allows your touch screen to be fully functional and provides excellent brightness on the display. The double zip offers a practical system for threading earphone and power cables through the case and into the phone.
